

Eckelmann

Specialist for individual cable customizing

Development, manufacturing & testing: cables | cable harnesses | drag chains | distribution boxes | terminal boxes

Over 15 years
of cable
production

When it comes to the production of data and communication cables, shielded and unshielded cables, cable harnesses, multi-core special cables or complete distribution or terminal boxes, craftsmanship and precision are in demand.

As a subsidiary of the Eckelmann Group, Eckelmann s.r.o. with more than 70 employees in Tvrdonice/Czech Republic produces cables, cable harnesses and control boxes according to individual specifications on more than 2000 square meters of ultra-modern production space.

Standard and special production according to customer specifications:

We manufacture cables and cable harnesses and assemble distribution and terminal boxes

Satisfied customers from all over the world trust in our know-how

Pre-assembled, tested and ready-for-connection end products: directly ready for use at the customer!

German- and English-speaking customer advisors look after your project from the initial contact to delivery.

Our performance – your advantage

- **Cost-effective production**

Benefit from the location advantages of the Czech Republic, optimal purchasing conditions and highest quality.

- **High quality**

Comprehensive tests ensure that everything really fits during commissioning. The tests are carried out with state-of-the-art test equipment and ensure perfect results.

- **Delivery on schedule**

Regardless of the short notice: With sophisticated logistical processes, we also manage just-in-time deliveries – worldwide!

- **All from a single source**

If more than just cable assembly is required, electrical design and control cabinet construction are also part of the Eckelmann Group's range of services. With our partner network, we also offer the production of sheet metal and housing parts from a single source.

We advise and manufacture according to given specifications

- Cable harnesses
- Drag chains
- Single cables
- Flat ribbon cable
- Special cables, samples and small series
- Distribution boxes and terminal boxes

Our standard program includes housings, cables and industrial connectors of all leading manufacturers. The production takes place according to customer requirements in **soldering, cutting, clamping and crimping technology**.
